## Irpinia Kitchens Statement of Environmental Responsibility

At Irpinia Kitchens, we feel it is our professional responsibility to help sustain the forests, wildlife habitat and nature's ecosystems. It is our belief that a healthy environment can be maintained through sound and responsible use of nature's resources. Respect for our natural resources and for the environment are two of the most important priorities at Irpinia Kitchens.

We appreciate forests for their natural ecosystems and wildlife habitats; the enjoyment they provide to tourists, hikers and campers; the jobs they support; the natural resources they provide to our industry and even the carbon they convert and store for the environment. Many cultures that live in the forestland are forever connected to their forest heritage. For all these reasons Irpinia Kitchens must do its part to maintain the health and vitality of forestland.

### FSC® Certification

Irpinia Kitchens believes responsible stewardship of the world's forest resources is an essential element of our business ethics.....which is why Irpinia Kitchens is proud to be the holder of a Forest Stewardship Council® (FSC®) Certificate of Registration for Chain-of Custody (SGSNA-COC-000128).

The scope of registration is as follows:

The purchase of FSC® Pure, FSC® Mixed, FSC® Recycled and FSC® Controlled Wood solid lumber, cores, and veneers, for the manufacture and sale of FSC® Mixed custom kitchens, kitchen cabinets, and bathroom cabinets, under the Credit system.

responsible forestry

Certificate Registration Code number **SGSNA-COC-000128**  
(See next page to view Certificate)

Chain-of-Custody (CoC) certification provides a guarantee to consumers that any product with the FSC® label can be tracked back to an FSC® approved source. To take ownership of, or to make any transformation to FSC® material or products and make an FSC® Claim requires Chain-of-Custody certification.

By purchasing FSC® certified materials and offering products that are FSC® certified we are supporting the growth and fostering of responsible forest management. Certified wood / fiber must maintain a "Chain of Custody" documentation trail from the forest to the finished product.
